Atty. Docket No.: 1067.005  
For: Syringe Piston Using in Fat  
Transplantation

STATUS REQUEST

Dear Mr. Ashe:

This letter is in response to your communications received 07 August 2007 and 06 November 2007, requesting the status of U.S. national application **10/595,572**.

Applicant's communication letter stated a review of the above-mentioned application in private "PAIR" showed a Request for Express Abandonment to Avoid Publication under Rule 1.138 filed by the previous attorney of record on 11 April 2007.

US Patent and Trademark Office records show that the request for express abandonment found in the records for the present application is directed to application number 10/595,571.

Accordingly, the Request for Express Abandonment appears to have been inadvertently scanned under the wrong application number. The present status for application number **10/595,572** is currently pending.
